SECTION 1 — THE PLATFORM (4 Key Selling Points)

Header: One platform. Every tool you need to scale.

Subheader: Completeful isn't a printer. It's the operating system your brand runs on.

 **SELLING POINT 1: AI Design + 1-Click Publishing** Design your product, generate a mockup, and publish to Etsy, Shopify, TikTok Shop, and Amazon — all from one dashboard. What used to take hours takes 10 minutes.

 **SELLING POINT 2: Direct-to-Manufacturer Pricing** We own the machines. We own the warehouse. No middlemen. That's why our prices are lower — and why your margins are finally something worth talking about.

Sample price comparison table: T-shirt, tumbler, metal sign

 **SELLING POINT 3: StackShip — POD + 3PL Hybrid** Launch with print-on-demand. Scale your best-sellers into bulk inventory. One location. One tracking number. One platform.

 **SELLING POINT 4: Deep Catalog — 900+ SKUs** Laser-engraved drinkware. Custom jewelry. Metal signs. Wedding products. Golf. Pet. UV print. Categories your buyers are already searching for — all in one place.

CTA callout: "Browse the full catalog →"

SECTION 2 — SOCIAL PROOF / TRUST

Header: Built by a seller. Trusted by sellers.

(Placeholder for testimonials, seller stats, order volume)

Supporting line: Real team. Real access. Direct line to our team — not a ticket queue.

SECTION 3 — GET STARTED (CTA)

Header: Ready to launch?

Subheader: Get started today by creating your free account and launching your first product.

CTA Button: Create My Free Account → **Secondary line:** No monthly fee · U.S.-based manufacturing · Cancel anytime

FAQ SECTION

Header: Common Questions

What's the difference between Completeful and other POD platforms? Most platforms act as middlemen — they outsource your orders, mark up the cost, and cap your growth. Completeful owns the entire supply chain: the machines, the warehouse, and the process. That means lower prices, faster turnaround, and tools built to help you scale — not just fulfill.

Why are your prices lower? Because we manufacture in-house. There's no third party taking a cut between your order and your customer. You get direct-to-manufacturer pricing with the quality controls that come with owning the process end-to-end.

Do I need design skills or multiple tools to get started? No. Completeful includes AI design and mockup generation built into the platform. You don't need Canva, Placeit, or any external design tool — everything lives in one dashboard.

What happens when a product starts selling really well? That's where StackShip comes in. You can transition your best-sellers from print-on-demand into bulk pre-stock fulfillment — from the same warehouse, on the same platform. No new vendors, no split shipments.

What kinds of products can I sell? Over 900 SKUs across DTG apparel, laser-engraved drinkware, custom jewelry, metal and wood signage, UV print, wedding, golf, pet, and corporate gifting categories. If your buyers are searching for it, it's likely in the catalog.

Is there a monthly fee to use Completeful? No. Creating an account is free. You only pay when you fulfill orders.

Who do I contact if I need help? You get direct access to a real team — not a support ticket queue. Reach out to us through the chat and we'll be in touch.
